SMART SCHOOLS BOND ACT

APPROVED!!

The state has passed the [Smart Schools Bond Act](#) which allocates \$2 billion towards technology and facility upgrades in schools. 62% of voters

Garry did most of his schooling in Florida. After a year at Florida University, he moved back to New York.

He took a job at the Miller Brewing Company and was employed there for 14 years.

After the Miller Brewing Company closed its doors, he took an electronics course at BOCES.

Soon after, in 1995, he went to work for Syracuse Time & Alarm Co., Inc, specializing in healthcare and sound systems.

He recently celebrated his 20 year anniversary with the company!

Garry has been married for 23 years and has 12 grandchildren and 2 great-grandchildren. In

supported this act, which lets schools spend their cut on high-tech equipment or acquire or refurbish space for expanding prekindergarten programs.

Districts are required to submit a "Smart Schools Investment Plan" to the Smart Schools Review Board. The plan will describe how the district will use the Smart Schools Bond Act funds.

Many school districts have already been tapping into this, but if you haven't...you need to act NOW!

The district will not receive a Smart School Grant until the review board approves their plan, so the faster you act the sooner you can get your funds!

Contact us and we will be happy to assist in developing such plans!

RAULAND TELECENTER U

**THE ONE SCHOOL NETWORK SOLUTION
FOR DELIVERING CRITICAL
COMMUNICATIONS**

his spare time he plays guitar, does a little woodworking, and fixes up classic cars (he has a 1988 Monte Carlo SS that he's hoping will be completed by the time he retires).

One of the more popular systems that we install in schools around the CNY area is the [Rauland Telecenter U® Intercom System](#).

Designed specifically to meet the needs of K-12 schools, the new Rauland Telecenter U® system offers a complete network-based system to connect an entire school district in a single unified solution.

The system integrates and manages emergency coordination, daily events such as bell scheduling, and everyday needs including morning announcements and classroom to front office communications.
